

Rev	Description	Date	Initials
A	First release	14 Apr 2014	GLEB
B	Updated release	22 Sep 2014	GLEB

Between the ISIS satellite dispenser systems ISIPOD and QuadPack there are small differences in maximum allowable volume, namely:

- ISIPOD allows for additional space on top,
- QuadPack allows for more volume at all lateral sides,
- Both systems can handle an even larger "tuna can" on the bottom.

The dotted additional volume allocations can only be used after consultation with and written approval from ISIS.

Project name	ISIS Advised Envelope	Scale	40%	By	GLEB	Date	14 Apr 2014	Material	n.a.
